

## Publications scientifiques et académiques des travaux de l'ISRE

(liste révisée, mai 2009)

Voici la liste des publications arbitrées disponibles dans des sources scientifiques publiées et qui découlent des travaux de recherche faits par ou via l'ISRE ou en utilisant des données ou des renseignements provenant des activités de l'ISRE. Certaines publications de la liste incluent ou utilisent également des données d'études faites par le Ministère de la Défense nationale avant la création de l'ISRE. Le contenu et les conclusions de ces articles et rapports sont basés sur ou utilisent des observations et des données de l'ISRE même si les articles publiés ne font pas, en tant que tel, état du travail de l'Institut ou qu'ils n'ont pas été financés par l'ISRE. Certaines thèses académiques sont également répertoriées puisqu'elles ont été soumises au processus d'examen critique et sont disponibles publiquement conformément aux politiques des universités concernées.
